Product Strategy, AI Strategy,
Product Marketing

Growth & Corporate Development

Go-to-Market, Sales
Enablement, M&A Diligence

Public Sector Domain

Budgeting & Fiscal Policy,
Grants, Procurement

Research & Engagement

Policy Research, Teaching,
Public Speaking

Professional Experience

Advisor to Local Governments

August 2025 – September 2026

Independent

- Supported local government innovation projects, including a **\$1.4B+ budgeting transformation** initiative in **Frederick County, MD**, and an assessment of **Measure G**, a landmark **Los Angeles County** governance reform.

Senior Vice President, Product Strategy

June 2023 – June 2025

Euna Solutions

Euna Solutions is a government technology SaaS provider delivering purpose-built public sector software across budgeting, grants, procurement, and payments to 3,000+ agencies.

- Unified a **\$100M+ SaaS portfolio** by integrating 10+ acquisitions and 12+ legacy products under a cohesive public finance narrative—streamlining GTM and improving cross-sell velocity across 3,000+ governments and launching new products within the portfolio including **Strategic Budgeting** and the **Euna Supplier Network**.
- Architected Euna's **AI strategy**, launching the AI Innovation Center, driving generative AI features, and establishing internal AI governance used across product and GTM.
- Built and led a 6-person **Product Marketing** team from the ground up, aligning positioning, packaging, and messaging across five acquired companies to support cross-sell and new revenue.
- Led end-to-end **product and GTM integration** for two major acquisitions (Euna Grants and Euna Procurement), serving as interim Product Director for Grants and retaining key customers and talent through transition.
- Developed and implemented "down-market" strategy, building a dedicated GTM motion and sales team, with a focus on **small cities and counties** typically overlooked by technology companies to open up new markets and expand impact.

Founder & Managing Director

February 2017 – June 2023

EthosLabs

EthosLabs is a civic-tech advisory and investment firm, serving the public sector technology market.

- Supported the development of product-market fit, go-to-market, and financing for over a **dozen civic startups**, including SPIDRTech (acquired), CityGrows (acquired), Camino (acquired), ZenCity (Series C), POLCO (Series B), and ClerkMinutes (seed).
- Advised **philanthropy and private equity (PE) firms**—including the Knight Foundation, Arnold Ventures, WCAS, and ONEX—on market trends and investment diligence, on deals ranging from \$10M to \$2B.
- Designed and implemented **growth playbooks**, spanning product strategy, customer targeting, and GTM enablement, purpose-built for the highly regulated public sector market.
- Developed and delivered strategic workshops and trainings for startups, NGOs, and government agencies on **AI in government**, digital service delivery, and procurement innovation.

Civic Technology Lecturer

January 2019 – September 2019

University of Chicago, Harris School of Public Policy

The University of Chicago is a globally ranked research institution offering a premier policy and data science program through its MS-CAPP degree.

- Designed and taught UChicago's **first graduate Civic Tech course** as part of the MS-CAPP program at the Harris School of Public Policy; published course materials have been reused by multiple universities internationally.
- Guided 40+ students through real-world projects with local government and nonprofit partners, focused on digital equity, civic data, and public UX.
- Placed multiple students in civic technology roles inside government and industry; recognized as **Mentor of the Year** for the Harris School of Public Policy.

Chief Innovation Officer

January 2016 – February 2017

City of Sacramento

- Designed and launched the **\$10M Innovation & Growth Fund**—the largest innovation fund of any mid-sized city in the country—focused on entrepreneurship, economic diversification, and inclusive civic tech development; approved unanimously by City Council (9–0).
- Built the **Mayor's Office for Innovation and Entrepreneurship (MOFIE)**, including org design, funding structure, and hiring of permanent staff to carry the work forward beyond the administration—codified by ordinance and funded with sustainable revenue.
- Created and executed **RAILS (Rapid Acceleration, Innovation, and Leadership in Sacramento)**, a \$1M grant program supporting 15 startup ecosystem builders across STEAM education, maker spaces, and civic technology; launched and completed the entire program—from concept to funding—in under four months, receiving over 140 applications.
- Attracted venture capital to Sacramento by structuring a first-of-its-kind municipal investment into **500 Startups**, making the city a limited partner and securing a commitment to establish a local presence—putting Sacramento on the national startup map.
- Established the **Mayor's Tech Council**, a hand-picked advisory group of startup and technology leaders that reviewed investments, advised strategy, and actively supported execution—deliberately small and high-impact, modeled after best practices from LA and Kansas City.

Chief Data Officer

September 2014 – October 2015

City of Los Angeles

- Led LA to the **#1 Open Data City** ranking nationally within a year—publishing over 400 datasets across 20+ departments, and earning the Platinum Open Data Certification from the World Council on City Data.
- Designed and deployed the **Mayor's Performance Dashboard**, used weekly by senior staff and department heads to drive operational improvement and cross-department accountability; saved the city \$180K by replacing third-party tools with open-source infrastructure.
- Built LA's first citywide **data science team** and launched multiple predictive analytics pilots in fire risk prevention, workforce hiring, and sanitation—establishing the city as a leader in evidence-based policymaking.
- Founded and launched the **GeoHub**, a pioneering open GIS platform featuring 1,000+ datasets, built in collaboration with Esri; became a national model and was cited by White House officials as a best practice in spatial data infrastructure.
- Consolidated and modernized departmental reporting systems, replacing siloed Excel-based processes with cloud-based dashboards and real-time KPIs integrated into citywide strategy reviews.
- Mobilized LA's civic tech community by organizing hackathons and meetups with over **10,000 volunteers and coders**, growing engagement through the largest local Code for America Brigade in the country.
- Partnered with departments such as Fire, Personnel, and Economic Development to embed analytics in hiring, permitting, and inspections—producing measurable efficiency gains and improved resident experience.

Code for America

Code for America is a nonprofit that helps governments modernize digital services through design, data, and open-source development.

- Co-founded and scaled the organization from **pilot to national nonprofit**, growing staff from 3 to 60+, revenue to \$15M+ annually, and government partnerships from 3 cities to 30+.
- Built CfA's **product and strategy functions**, leading development of tools for permitting, public records, justice reform, and benefits access.
- Created and scaled the **Code for America Fellowship**, embedding 75+ technologists in city halls and producing 30+ digital services now used by millions; Fellowship alumni now hold senior posts in city, state, and federal government.
- Launched and ran the **first-ever GovTech startup accelerator**, seeding companies including OpenCounter, NextRequest, and Remix, each later acquired.
- Built and led Code for America's growth strategy, including communications, business development, and fundraising—managing multi-million-dollar partnerships with Omidyar, Google.org, and the Knight Foundation.
- Chaired the **Code for America Summit**, growing it from a small community convening to an annual gathering of 1,000+ civic leaders.
- Edited and published *Beyond Transparency*, Code for America's book on open data and government innovation, and helped launch **Code for All**, an international network of sister organizations; Fellowship alumni were among the early staff of **18F** and the **U.S. Digital Service**.
- Helped **20+ cities** rethink their technology organizations, setting up offices of technology and innovation, reorganizing the city for tech capacity development.

Community & Industry Involvement

Rose Institute of State and Local Government – Research Affiliate / Visiting Scholar (May 2023 – Present)

Leading Cities (GovTech Accelerator / NGO) – Board of Directors (July 2022 – Present)

Public Interest Technology University Network (PIT-UN) – University Challenge Selection Committee (May 2022 – Present)

Government Finance Officers Association (GFOA) - Innovation Lab Concept Advisor (May - July 2025)

CivicAI Studio - Civic Startup Advisor (May 2025 - Present)

Coding it Forward (GovTech NGO) – Mentor & Speaker (January 2020 – Present)

SmartCityX (GovTech Accelerator) – Leadership Circle (May 2019 – Present)

Newsom for California (Governor) – Co-Chair, Tech and Innovation Policy Committee (August 2017 – November 2018)

OpenGov Foundation (GovTech NGO) – Board Member / Vice-Chair (May 2014 – May 2017)

Truman National Security Project – Partner

Honors & Recognitions

- Mentor of the Year, University of Chicago Harris School of Public Policy
- Top 10 Chief Data Officers (CDOs) to Watch, *Technical.ly* Magazine
- Gold Globee Award and Best of Category, Most Innovative AI in Public Sector Services (for Euna AI)
- Globee Award, Best Budgeting and Planning Tool (for Euna Strategic Budgeting)
- GovTech 100 (multiple companies), *Government Technology* Magazine
- Blair Award for State and Local Government, Rose Institute of State and Local Government
- Edward J. Sexton Fellow; Philosophy, Politics, and Economics
