Professional Experience

Senior Vice President, Product Strategy

Euna Solutions

2023 – 2025

GovTech SaaS provider serving 3,000+ government agencies across budgeting, grants, procurement, and payments.

- Led product strategy for \$100M+ ARR portfolio, unifying 12+ legacy products from 10+ acquisitions into a cohesive platform with consistent UX, shared infrastructure, and cross-sell capabilities.
- Architected and launched **company-wide AI strategy**, including an AI Innovation Center, generative AI features across the product suite, and enterprise AI governance framework adopted by product, engineering, and sales.
- Led integration of two leading grants technology companies, eCivis and AmpliFund, into **Euna Grants**, creating the market's largest purpose-built grants management solution.
- Built and led the **Product Marketing** function from the ground up, aligning 10+ acquired brands under a cohesive go-to-market strategy, and led go-to-market strategy and training for 80+ sales organization.
- Drove **thought leadership** partnerships with GFOA and industry associations, shaping national conversations on AI in government and fiscal modernization.

Lecturer, Civic Technology

University of Chicago, Harris School of Public Policy

2019

- Designed and taught the university's **first graduate course in civic technology** as part of the MS-CAPP program.

Founder & Managing Director

EthosLabs

2017 – 2023

GovTech advisory and investment firm focused on public sector technology.

- Advised **12+ civic tech startups** on product-market fit and growth, including four successful acquisitions and two Series B+ raises.
- Provided **investment diligence** to Knight Foundation, Arnold Ventures, WCAS, and ONEX on deals ranging from \$10M to \$2B.
- Positioned portfolio companies to win contracts with the **City of New York, State of California, and U.S. Department of Justice**.
- Developed public sector **growth playbooks** addressing the unique sales cycles, procurement requirements, and stakeholder dynamics of government markets.

Chief Innovation Officer

2016 – 2017

City of Sacramento

- Designed and secured unanimous City Council approval (9–0) for a **\$10M Innovation & Growth Fund**—the largest municipal innovation fund among mid-sized U.S. cities.
- Established the **Mayor's Office for Innovation and Entrepreneurship (MOFIE)**, a permanent city office codified by ordinance with sustainable funding.
- Launched **RAILS**, a \$1M grant program for startup ecosystem development; delivered from concept to funding in under 4 months with 140+ applications.
- Structured first municipal **LP investment in 500 Startups**, attracting venture capital presence and national attention to Sacramento's tech ecosystem.

Chief Data Officer

2014 – 2015

City of Los Angeles

- Led LA to **#1 national ranking** for open data within one year, publishing 400+ datasets and earning Platinum certification from the World Council on City Data.
- Built **LA's first data science team** and launched predictive analytics pilots in fire prevention, workforce planning, and sanitation—establishing the city as a leader in evidence-based operations.
- Deployed the **Mayor's Performance Dashboard**, replacing \$180K in third-party tools with open-source infrastructure and enabling weekly performance reviews across 40+ departments.
- Launched **GeoHub**, an open GIS platform with 1,000+ datasets developed with Esri; cited by White House as a national model for spatial data infrastructure.
- Mobilized **10,000+ civic technologists** through hackathons and community engagement, building the nation's largest Code for America Brigade.

Co-Executive Director

2010 – 2014

Code for America

Pioneering nonprofit that launched the civic technology movement.

- Co-founded and scaled organization from 3-person pilot to **60+ staff** and **\$15M+ annual revenue**, expanding from 3 to 30+ government partners.
- Created the **Code for America Fellowship**, placing 75+ technologists in city halls and delivering 30+ digital services now used by millions of residents and the **first GovTech accelerator**, incubating companies including OpenCounter, NextRequest, and Remix—all achieving successful exits.
- Positioned organization as thought leader by growing the **Code for America Summit** from 50 attendees to 1,000+ civic leaders and published *Beyond Transparency*, a field-defining book on open data.
