Strategy & Operations

Product Strategy, Go-to-Market, Sales, Mergers & Acquisitions, Dilligence, Performance Metrics

Professional Experience

Senior Vice President, Product Strategy

June 2023 – June 2025

Euna Solutions

Euna Solutions is a government technology SaaS provider delivering purpose-built public sector software across budgeting, grants, procurement, and payments to 3,000+ agencies.

- Unified a **\$100M+ SaaS portfolio** by integrating 10+ acquisitions and 12+ legacy products under a cohesive public finance narrative—streamlining GTM and improving cross-sell velocity across 3,000+ governments and launching new products within the portfolio including **Strategic Budgeting** and the **Euna Supplier Network**.
- Architected Euna's **AI strategy**, launching the AI Innovation Center, driving generative AI features, and establishing internal AI governance used across product, sales, and operations.
- Built the **Product Marketing** group from the ground up, aligning positioning, packaging, and messaging across five acquired companies to unlock new revenue and reposition Euna as a category leader.
- Led end-to-end **product and GTM integration** for two major acquisitions, for Euna Grants and Euna Procurement, from product alignment to sales enablement, ensuring retention of key customers and talent through transition.
- Amplified Euna's market voice through **thought leadership**, leading joint initiatives with GFOA, associations, and influencers—shaping the national conversation on AI in government, fiscal resilience, and modernization.
- Developed and implemented "down-market" strategy, building a specifically-trained GTM motion and sales team, with a focus on **small cities and counties** typically overlooked by technology companies to open up new markets and expand impact.

Founder & Managing Director

February 2017 – June 2023

EthosLabs

EthosLabs is a civic-tech advisory and investment firm, serving the public sector technology market.

- Supported the development of product-market fit, go-to-market, and financing for over a **dozen civic startups**, including SPIDRTech (acquired), CityGrows (acquired), GovDelivery (acquired), Camino (acquired), ZenCity (Series C), POLCO (Series B), and ClerkMinutes (seed).
- Advised **philanthropy and private equity (PE) firms**—including the Knight Foundation, Arnold Ventures, WCAS, and ONEX—on market trends and investment diligence, on deals ranging from \$10M to \$2B.
- Designed and implemented **growth playbooks**, spanning product strategy, customer targeting, and GTM enablement, purpose-built for the highly regulated public sector market.
- Developed and delivered strategic workshops and trainings for startups, NGOs, and government agencies on **AI in government**, digital service delivery, and procurement innovation.
- Based on learnings from consulting, designed and taught **University of Chicago's first graduate civic tech course** focused on impact and sustainability; published course materials have been reused by multiple universities internationally.

Chief Innovation Officer

January 2016 – February 2017

City of Sacramento

- Designed and launched the **\$10M Innovation & Growth Fund**—the largest innovation fund of any mid-sized city in the country—focused on entrepreneurship, economic diversification, and inclusive civic tech development; approved unanimously by City Council (9–0).
- Created and executed **RAILS (Rapid Acceleration, Innovation, and Leadership in Sacramento)**, a \$1M grant program supporting 15 startup ecosystem builders; launched and completed the entire program—from concept to funding—in under four months, receiving over 140 applications.
- Established the **Mayor's Tech Council**, a hand-picked advisory group of startup and technology leaders that reviewed investments, advised strategy, and actively supported execution.
- Attracted venture capital to Sacramento by structuring a first-of-its-kind municipal investment into 500 Startups — a nationally recognized investor and accelerator.

Chief Data Officer

September 2014 – October 2015

City of Los Angeles

- Led LA to the **#1 Open Data City** ranking nationally within a year—publishing over 400 datasets across 20+ departments, and earning the Platinum Open Data Certification from the World Council on City Data.
- Built nationally recognized **Mayor's Dashboard**, used weekly by senior staff and department heads to drive operational improvement and accountability; saved the city \$180K by replacing third-party tools.
- Founded and launched the **GeoHub**, a pioneering open GIS platform featuring 1,000+ datasets, built in collaboration with Esri — cited by White House officials as a best practice in spatial data infrastructure.
- Partnered with departments such as Fire, Personnel, and Economic Development to embed analytics in hiring, permitting, and inspections—producing measurable efficiency gains and improved resident experience.

Co-Executive Director

May 2010 – March 2014

Code for America

- Built and scaled the organization from **pilot to national institution** — growing staff from 3 to 60+, revenue to \$15M+ annually, and partnerships from 3 cities to 30+ — building a model for civic innovation replicated by the White House, the World Bank, and other governments internationally.
- Created and scaled the **Code for America Fellowship**, embedding 75+ technologists in city halls and producing 30+ digital services now used by millions, and built the **first-ever GovTech startup accelerator**, seeding companies like OpenCounter, NextRequest, and Remix—each of which achieved successful exits.
- Chaired the **Code for America Summit**, growing it from a small community convening to a global stage of 1,000+ civic leaders — establishing the premier event in the civic tech field.
